WHO R U?

When we take the time for ourself to “look within” and remember what matters, when we go beneath our own stories and fears that the Elemental Dragon may represent, we may just find a hidden treasure beneath it all.

If all you need is a good rest and a break from your usual routine, we will do all we can to provide you with a truly relaxing space...

So, if you’re looking for more, why not check out our “menu” of suggestions, that may help you get clear on what you need...?

Our community gatherings, events and workshops are designed to create a space for you to reconnect with nature and explore your inner elemental self, which includes relaxing and having fun! Elemental invites in a technology-free, clock-free experience. Letting go of these dominant modern forces if only for a while, allows the mind and heart to fall into resonance with natural rhythms and open to qualities and sensory capabilities previously lost or long forgotten.

The Dreamer and the Do-er

Kerry dreams, Mike builds! Our 36 year long partnership has led us from the urban streets of the UK to this place, our home in North Canterbury, NZ. It represents our hopes and dreams and our legacy of thanks for the life we have lived, the things we've discovered along the way and the fruits of our labours left in this space offering inspiration to the next generation. As the temporary guardians of this Elemental space, we are happy to share our dream with those who choose to visit for a while.

I thought I was creating a garden,
but eventually realised the garden
was creating me.

See You Soon!
